OCTOBER 2024

Professional Work Experience

IT Project For Gallagher Group Limited / Design Factory NZ Student
FEBRUARY 2024 - JULY 2024, HAMILTON

- Created a front-end database-driven website with HTML, CSS, Bootstrap 5.33 and JavaScript and connected it to a back-end SQL database using PHP.
- Gained valuable experience working with students from different technical backgrounds, finding innovative solutions to the problem of improving safety in multi-use spaces and applying our ideas to create an IT-based solution.
- Gained hands-on experience in Web Design, PHP and SQL, increasing proficiency and expanding my technical skill set.
- Contributed to a positive team environment by collaborating with fellow students to interview a variety of people to gather insights on the problem and create an IT-based solution.
